**ELECTRONIC
FUNDS
TRANSFER**

*Payments made easy by
Electronic Funds Transfer*

What is Electronic Funds Transfer?

Electronic Funds Transfer (EFT) is a payment system that enables you, our insured, to pay your premium payments electronically. Premiums can be transferred from your bank checking or savings account directly to our account. It is safe, easy to set up, and the best part is its hassle free. Once you are signed up you no longer need to worry about missing a payment.

What are the benefits of using EFT?

- **EFT saves on fees:** You will no longer be charged the monthly \$6.00 installment fee.
- **EFT is safe and convenient:** You will no longer have to worry about delayed, lost or stolen checks.
- **EFT is Automatic:** Your payments will be credited to your account every month, even if you're away from home.

How does EFT work?

Start by filling out the Authorization Agreement on the right hand side and send it into our company. Or log onto our website at www.securitymutual.com to complete the authorization agreement online.

We will securely enter your banking information into our system to start the process. You will then receive an EFT payment schedule via email, or mail if you do not have an email address. This advises you of your payment withdrawal dates and amounts. Seven days prior to your payment you will receive a reminder via email, or mail if you do not have an email, that the payment is being withdrawn.

If you make any premium bearing changes to your policy, the monthly payment amounts will change. You will receive a seven day reminder notice that will reflect the change in premium.

You may sign up at any time for EFT; you do not have to wait until your renewal.

We ask that you contact us immediately if there is an issue with your bank account, or need to stop your automatic EFT withdrawal.

Authorization Agreement for Direct Payments
