5. OPTIONAL COVERAGES & ENDORSEMENTS

Refer to forms for exact coverage description including limitations and exclusions.

Examples shown in this section are only a guide to the rating procedure.

5-a ADDED WATER DAMAGES COVERAGE - (SF-72)

This form adds coverage for direct loss to property caused by the backup of water through drains and/or sewers and through sump basins caused by failure of sump pump operation.

The rate for this coverage shall be \$13 per \$1,000.

If coverage for Added Water Damages is given in an endorsement included on the policy (i.e. SF-518), the amount included on the endorsement should be subtracted from the amount shown on this form. Only the additional amount should be rated.

For example:

The policy includes SF-72 with \$7,000 shown on the form. The policy also includes an SF-518. Since the insured gets \$2,000 Water Damages Coverage from the SF-518, the insured is actually only purchasing an additional \$5,000 on form SF-72.

Rating:
