

Security Mutual Group is proud to present the innovative Truepic/Vision Inspection platform for Personal Lines Risks, a cutting-edge digital inspection solution designed with our policyholders' convenience in mind. This user-friendly service enables Insureds to effortlessly capture and send photos directly to us, eliminating the often lengthy and cumbersome inspection process. We encourage our valued Insureds to take full advantage of this remarkable service, which not only streamlines inspections but also reinforces our commitment to personalized service and building strong relationships. With Truepic/Vision Inspections, we strive to provide peace of mind and ensure that protecting your investments has never been easier or more efficient.

Truepic Vision is a digital inspection platform that provides a quick and convenient way to send verified, trustworthy images and videos directly to **Security Mutual Insurance**

Benefits of using Truepic Vision

- Faster processing and turnaround time
- No need to schedule or wait for a 3rd-party inspector
- Easy to follow questions and photo requests

Complete your virtual inspection in minutes

-  1. An inspection request will be sent via text message or email
-  2. Tap on the link to download the **Truepic Vision** app
-  3. Follow the prompts to take photos and complete your inspection
-  4. Your photos will be reviewed and processed
